

Discover how PRINCE2 Agile® can enhance your project delivery

CLAIRE JONES

Job title: Project Manager

Industry: IT

Qualifications:

PRINCE2 Foundation January 2008

PRINCE2 Practitioner March 2013

Claire has been a **Project Manager** for **15 years**. She manages large-scale IT installations and developments within multi-national organizations.

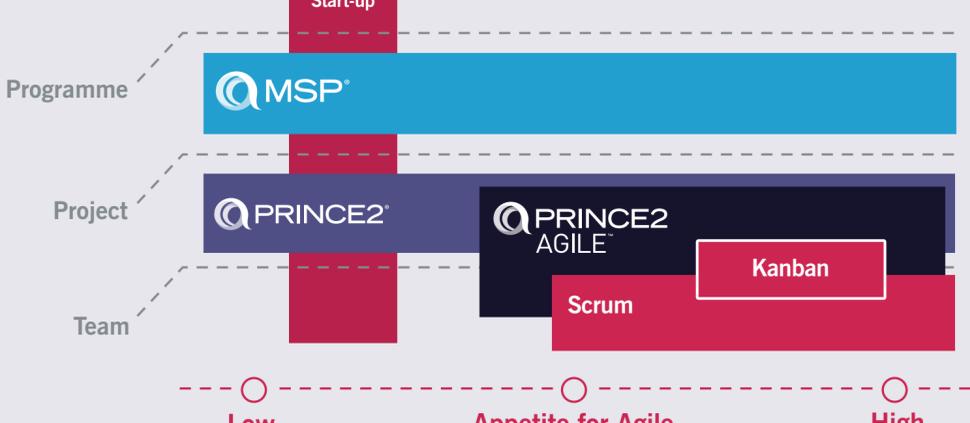

Throughout her career, she has **leveraged the techniques** she learnt from her PRINCE2 training. She's **highly respected** for her ability to **clearly plan projects** and get stakeholders on board very quickly.

As a Project Manager she is always on the **lookout** for **new tools and techniques** to help make her **job easier** and to in turn deliver **more value** to her stakeholders.

She has heard a **lot about agile** but is **unsure where to start** and how it could help her!

More and more, Claire's colleagues are tailoring agile techniques to meet the changing demands of the industry. **In order to maximize her expertise**, she signed up for PRINCE2 agile.

PRINCE2 AGILE®

A short period of study and an exam later, she now has an **up-to-date, relevant qualification** that gives her a **different perspective** on projects and a **new lease of life** for her job.

Claire learnt **new techniques and tools** to build on top of her existing training and experience:

Burn Charts to measure progress

User Stories to reflect customer requirements

Retrospectives to ensure that lessons are captured

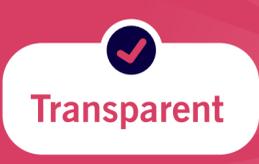

Time Boxing to control time and costs

Measuring Flow via Kanban boards to monitor work in progress within teams

Claire has been promoted and is praised for her dynamic, flexible approach to projects.

She always meets deadlines, and now is equipped with even more tools and techniques to help her when the goalposts need to change.

Stay agile: flexible, responsive, ready.
